SKILLS

Programming
Cybersecurity
Penetration Testing
AI Security
Linux, Bash Scripting
Web Development
Teamwork, Networking

EDUCATION

Engineering Degree in Information and Communications Technology
ENIG - National Engineering School of Gabes.
September 2023 – May 2026
Technical Preparatory Degree
IPEIS - Sfax Preparatory Engineering Institute.
September 2021 – May 2023

LANGUAGES

Arabic **Native**
English **Advanced**
French **Intermediate**

PROFILE

ICT Engineer specializing in cybersecurity and AI security, with experience in adversarial ML, penetration testing, and LLM integration. Designed and implemented an end-to-end AI pentesting framework at Talan Tunisia covering threat modeling, attack technique cataloging, and automated scoping.

CERTIFICATIONS

Cisco CyberOps Associate (CBROPS 200-201)
Cisco Dec 2025
Microsoft Certified: Azure AI Fundamentals
Microsoft Nov 2024
Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
Microsoft May 2024

PROJECTS

Agentic AI for Autonomous Penetration Testing (ViperAI)
Personal Project October 2025 - January 2026
Designed an autonomous AI agent capable of identifying vulnerabilities and attack paths with minimal human intervention
AI Pentesting Framework
Final year Project February 2026- May 2026
End-to-end methodology and operational platform for pentesting AI/ML systems, covering 46 attack techniques across training, deployment and production phases, with LLM-assisted scoping and automated PDF report generation.

EXPERIENCE

Cybersecurity Consultant Intern
Talan Tunisia February 2026 - May 2026
Designed an AI security assessment methodology and platform for the cybersecurity consulting team, covering the full ML lifecycle from training to production.
CTF Competitor
EnigDev 4.0 Cybersecurity Competition December 2024
Won first place in a cybersecurity competition focused on penetration testing and forensics.
Problem-Solving Challenge Organizer
EnigDev 4.0 October 2024 – December 2024
Organized and managed a technical problem-solving competition for 40+ participants using HackerRank.
